THE N.S.W. LAND Process.

Hon, members of the Legislative Assembly have now before them the State Bank Bill introduced by the Government, and the public will watch with the keenest interest the manner in which their representatives deal with so important a subject. It is now many years since the proposal for the establishment of a State Bank in Victoria was first mooted; but it appeared to have been lost sight of during the land and silver booms, when the necessity for any such institution was not felt by those who were accumulating vast fortunes—on paper—through the medium of the syndicates that, with members

has been arranged, and Mr and Mrs Otto
Brandon will play the popular and
amusing comedicata, "My Milliner's Bill." AN UNDATURATE OCCURENCE—Mr.
J. E. Byass on Tuesday morning had the
misfortune to lose a valuable buggy horse,
(one of his hardsome pair of chestnots) in
a singular manner. The two horses were

is drawn with the double object of establishing a State Bank and amalgamating the Post-office and Commissioners' Savings - banks. That step has, of course, everything to commend it; indeed, it would be absurd to have running at one and the same time three separate and distinct institutions, practically under the one head. The measure provides for raising by mortgage bonds a fund to be placed at the disposal of the Commissioners of Savings-banks for advances; for making advances at

The Tatura Show.—We have again to remind our readers of the Tatura Show, which takes place next Wednesday and Thirsday. The entries are large in all classes, and some of the finest exhibits seer throught into a show-ground in the district will be on view. Many novel and interesting features will this year be introduced, the committee and their energetic secretary. We Luke Flanagan, being fully alive to the fact that the more attractions they can often to the public the greater is the interest taken in the show on the first day there will be a chaffuntting contest, sheep-dog trials, and other additions to the ordinary show programme; while the trials of hunters and pony jumping promise this year to be particularly good, some first-class animals being engaged. The second day witnesses they special train, accompanied by a large Parlamentary party, including members of both Houses. The attendance bids fair to be exceptionally large, and as on Thursday the weekly half-holiday will be observed in Shepparton (in place of Welnary) the number of visitors from this district will be a substantial increase upon

THE MOST IMPORTANT LESSON Escalapins tried to impress upon his pupils was that the chief trouble affecting humanity was due to impurities of the blood, All disorders may be traced to this fact, for unless the source of life is free from disease germs it cannot have that strength which is necessary for good health. Holloway's Pills are composed of the most precious before and soothing balsams which Mother Earth can offer to her children, therefore they may be relied upon to supply the nourishment that is craved by the system. It is no vain boast to say that this is the most wonderful discovery made in the annals of medical science; they will care or relieve all diseases.
